Shipping Weight: 1.1Kg

Our Drinkers and Feeders, mount on almost any wall, fence chicken wire, easy to move when needed with one hand.

AUSTRALIAN MADE from virgin PVC-U Plastic Piping and Components (Not the cheaper stormwater piping).

Aesthetically unobtrusive, functional to a tee they will make the watering and feeding of your flock a breeze.

Our Chicken Nipple Drinkers are 100% maintenance free.

Why Drinking Nipples? We chose Drinking Nipples over Lubing cups as the later invariably need to be cleaned and rinsed out from time to time as they collect silt from the dust, pinesavings and dirt of coops and run area's as our aim is to minimise the time taken to maintain equipment.

It's not just our opinion Read What the Chicken Vet is saying! :

"As a vet, I recommend that everyone raising hens change from open water sources to nipple drinkers....the hens get plenty of water, and the disease reduction is so striking that there is no doubt which is better."

~ Dr. Mike Petrik, DVM, MSc, The Chicken Vet.Quick Mount Hooks that makes it easy as to install with one hand - Hang on many types of fencing and enclosures such as Banksia fencing, Chicken coop wire or simply drill 10-14mm hole into any flat wall surface up to 8mm in thicknessNo Maintenance required for the drinkers as we use the Highest Quality Nipple Drinkers that last years of use inside and outside

the coop

Minimises water spillage in the coops keeping coops dryer than traditional water drinkers. Feeder

No Spill Design lowers wastage of feed and keeps the feed in the feeder or in your chickens Quick Mount Hooks that makes it easy as to install with one hand Easy to hang on many types of fencing and enclosures such as Banksia fencing,

Chicken coop wire or simply drill 10-14mm hole into any flat wall in the coop Holds

3.7 Kg's of Feed and is 1 Metre in Length
