

Wishy's Wyandottes

Australia 2650

My children and I breed a number of colours in Bantam Wyandottes. Partridge, Silver Pencilled, Silver Laced, Gold Laced, Gold Laced Blue, Blue Laced Red, Columbian, Buff Columbian and Black. We also breed large Gold Laced and Silver Laced. We are always trying to breed other colours as well and will hopefully have some Buff Laced and Red Laced this season in the bantams as well, with Wyandottes the sky is the limit on colours.
